Dear Rob,

I would like to thank you and your company for the outstanding service I have received since getting your services.

As you know when we decided to move to the Orangeville area it was imperative that I have a high speed internet connection. Since I work from home I could not function with the services supplied by Bell or other satellite companies. My clients expect me to be available 24/7 and this is critical to my business.

We researched various companies and then selected your company for the final test. The last condition on buying the house was an "internet test" before we signed on the dotted line. We had to beat the "oncoming early winter" and you and your staff went through hoops to get us up and running.

So again Rob, I would like to thank you and your staff for an outstanding installation and continued excellent service. A few weeks back I looked out the window and the wind was blowing the snow and small trees sideways, to my pleasure I was up and running and just smiling. Good luck growing your business and with your track record I'm sure that won't be an issue

Sincerely,

A handwritten signature in black ink, appearing to be 'Peter Weiler', with a long horizontal flourish extending to the right.
